Right of Way - Route 35

171 There is presented here the matter of the award of condemnation commissioners entered against the State in the condemnation of property on Route 35, Section 3, Parcel R1A owned by the New York and Long Branch Railroad Company.

At the hearing before commissioners the owners did not offer testimony, but the State offered testimony in the amount of $67,500. Fair market value has been established in the amount of $67,500. The award of commissioners was in the amount of $67,500.

Approval of the payment of the award in the amount of $67,500 less the deposit of $61,200 or $6,300 together with interest as computed by the Bureau of Titles is recommended. (April 24, 1968)

Right of Way - Route 72

172 There is presented again the matter of a commission award entered against the State in the condemnation of property on Route 72, Section 6, Parcel 24, title to the parcel involving Charles Kensil, his unknown heirs, devisees and personal representatives, and his, their, or any of their, successors in right, title and interest.

Fair market value was recently reregistered in the amount of $200.00. The State's expert at the hearing before commissioners testified to the value of $200.00. No one appeared on behalf of the defendant.

On February 21, 1968 commission action was approved, which commission action set forth that a deposit of $100.00 was paid into court on June 8, 1967. This commission action is in error and should be rescinded.

A deposit of $100.00 was made into court on June 8, 1967 and an additional deposit of $100.00 was made on November 6, 1967, making a total of $200.00 deposited into court.

The Commissioners' award is in the amount of $200.00.

It is recommended that the award in the amount of $200.00 be approved.

Right of Way - Route 78

173 There is presented here the matter of the appeal by the owner from an award of condemnation commissioners in the sum of $44,700. A Judgment was entered against the State in the condemnation of property on Route 78, Section 4B, Parcel R22 owned by Elois T. Langmack.

At the trial before the Court sitting without a jury the owners offered testimony in the amount of $89,500, and the State offered testimony in the amount of $44,700. The verdict was in the sum of $63,000 with interest at 6 percent on the sum of $18,300, that being the difference between the deposit, $44,700 and the verdict, $63,000, from January 27, 1967 to the date of payment.

Approval of the payment of the verdict in the amount of $63,000 less the deposit of $44,700 or $18,300 together with interest as computed by the Bureau of Titles, is recommended. (April 22, 1968)

Route 80, Section 5K

174 There is again presented the matter of condemnation of property on Route 80, Section 5K, Parcels UER190, UER191A, UE3R188C owned by Lillian F. Morrissey, et al and Route 80, Section 5K, Parcel UE191C owned by C. A. Hunt Engineering Co., Inc., et al.

An action in condemnation in this matter was instituted in 1963. The property owner objected contending that since the acquisition involved railroad land the then Highway Commissioner had no authority to proceed with condemnation. The Highway Commissioner thereupon entered an agreement to reimburse the Railroad for all expenses in connection with its proceeding and condemnation, including the cost of counsel and of appraisal and engineering witnesses. The owners' attorney is now willing to withdraw his objection to the Department's proceeding with the condemnation and has made a motion that either the Railroad or the Department proceed.

In view of the fact that all expenses will fall on the Department, it seems in the Department's best interests, expense and experience-wise, to proceed if the court permits. Approval to so proceed is requested. (April 22, 1968)

APRIL 29, 1968 NO. 13 - 1968

Claim - Settlement

5 Arthur W. Marshall, Assistant Supervisor, Landscape, Department of Transportation, sustained personal injuries as the result of a third party accident occurring on February 7, 1967. As the result of said injuries the Department of Transportation was required to expend the sum of $2,098.33 for medical treatment rendered and for time lost chargeable to this accident. There is also a possibility of an additional bill in the amount of $150.00 will be received for payment in which case our lien will then amount to $2,248.33.

Recently a settlement conference was held between the Claims Bureau and the insurance company representing the third party and a compromised settlement was reached whereby the employee would accept $500 less than his original asking figure and the State would accept $2,000 in full settlement of its compensation lien. In the event the settlement was not concluded and the employee obtained the services of an attorney to represent him in this matter, the State's lien would then be subject to a contribution toward the employee's counsel fees and expenses of suit. These counsel fees would not only be calculated on the amount of the State's actual expenses, but also on the amount of its obligation relieved with respect to permanent disability.

Giving due consideration to this aspect we feel the proposed offer of settlement was fair and reasonable and the best interest of the State would be served if we accepted the sum of $2,000 in full settlement of its lien. It is therefore our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormack, that the offer of $2,000 receive favorable consideration and be approved. (April 29, 1968)

Claims - Settlement

6 The Department of Transportation has a claim against Natalie Druda and Martin F. Druda in the amount of $224.64 arising out of an accident occurring on March 13, 1964 involving a vehicle owned by Natalie Druda, being operated at the time by Martin F. Druda. When the claim was originally rendered the debtors through their attorney, denied liability on the grounds that they had just been delivered the vehicle involved in the accident from a Used-Car Dealer who warranted it to be in good working order. Before the car had been driven three miles there was a complete brake failure which resulted in the accident.

The Claims Bureau recently instituted a District Court Action against the Drudas who felt the Drudas would in turn bring in the Used-Car Dealer as a third party defendant. We have recently been advised by the attorney representing these defendants that the Used-Car Dealer is no longer in business and therefore cannot be made a party to our suit. I am attaching, hereto, letter received from John J. Lemken, Esq. offering the sum of $112.50 in full settlement of the State's claim, which letter is also self-explanatory as to the defendants financial circumstances.

Giving due consideration to all the circumstances involved in this case, we feel the offer of settlement in the amount of $112.50 is a fair and reasonable offer and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormack that it receive favorable consideration and be approved. (April 29, 1968)

191 There is presented the matter of the commission award entered against the State in the condemnation of property on Route 24, Section 13, Parcel ~~R25~~ 2R25, owned by Angelo Giuliani.

The fair market value was originally registered in the amount of $32,700. It was re-registered in the amount of $17,100. This is an entire taking.

There is a factual dispute as to when the State took possession. It is the property owners' contention that the State took possession while the land was improved with the building. The building was subsequently demolished and the complaint was filed on June 29, 1965 when the property was vacant. The property owners' attorney presented letters from the State of New Jersey, Highway Department, to the tenant advising that the State acquired possession in March, 1965 and that the tenant vacated the premises in March, 1965 and the State paid the tenant moving expenses. It is the property owners' contention that as a result of these actions the State took possession.

A deposit of $32,700 was originally made with the Court and part of the deposit was withdrawn leaving a balance of $17,100.

The State's expert opinion of value was in the amount of (cont'd) $17,100 and the property owners' expert opinion of value was in the amount of $33,000.

The Report of Commissioners was in the amount of $25,000 and a protective appeal was filed. It is herewith recommended that the Commissioner approve the payment of the commissioners' award and the withdrawing of the appeal on the grounds that the factual evidence indicates that the time the State took possession in March, 1965, the premises were improved with the building. (May 3, 1968)

The State's trial counsel did not recommend an appeal. However, a protective appeal was filed. After reviewing the file, both Deputy Attorneys General Lipkin and McCormack recommended that an appeal be taken.

It is recommended that the appeal taken from the award of condemnation commissioners be approved. (May 3, 1968)

A Consent Judgment was entered in the amount of $62,750.00.

It is recommended that the Consent Judgment in the amount of $62,750.00 be accepted and that payment in the sum of $4,450.00, being the amount over and above the deposit into Court, be paid together with lawful interest as computed by the Bureau of Titles. (April 29, 1968)

197 There is again presented the matter of the judgment entered against the State in the condemnation of property on Route 46, Section 16, Parcels 12A & 12B, owned by L.H.W. Realty Corporation, a corporation of New York.

The fair market value was registered in the amount of $39,000.00. The Commissioners' award was in the amount of $85,365.00. This was an entire taking.

The State's expert testimony would be in the amount of $39,000.00 which is the fair market value. There is another appraisal in the file in the amount of $59,800.00. The State has been in possession since October 3, 1963 and the deposit was not made into Court until October 31, 1967 in the amount of $34,100.00. The complaint was filed on June 12, 1964.

The State appealed the commissioners' award and after three days of trial the matter was settled for $42,000.00 plus interest. Interest was in excess of $10,000.00 and a consent judgment was entered in the amount of $52,000.00 inclusive of interest without cost and interest not to accrue on the Judgment from and after May 25, 1968.

Authority to settle this matter was received from William J. Brennan, III, Assistant Attorney General, who conferred with Mr. Mullen.

The appeal in the said matter was scheduled for trial, but inadverdently no one appeared in the Bergen County Court [illegible]lf of the State and the said matter was continued to a new dat[illegible]dition that the State pay $150.00 as witness fee for defendant-owner's expert who appeared on the scheduled date.

It is recommended that the Commissioner approve the payment of the Judgment in the sum of $52,000.00, less the deposit of $34,100.00 heretofore made, that is, $17,900.00, together with any interest which may accrue from and after May 25, 1968, together with the said sum of $150.00 as the expert's witness fee.

One-half of the cost of transportation of the jury for the purpose of view is to be paid by each party. (April [illegible], 1968

Services - Statewide Engineering
Boswell Engineering Company

8 The ceiling in our agreement with Boswell Engineering Company for statewide engineering surveying services was arbitrarily established at $25,000. The firm has provided services wherein the reimbursement is approaching the ceiling. Since these services are still required, it is recommended that an additional $25,000 be set up for this account. This additional $25,000 will increase the ceiling on this agreement to $195,000. Mileage expenses can be reimbursed from these funds. (May 14, 1968)

Services - Engineering - Route 3
Hardesty & Hanover

9 Change orders have been processed in connection with our Route 3 Agreement with Hardesty & Hanover dated August 23, 1963. To date, this extra work amounts to $200,000.

To provide reimbursement due the consultant, it is recommended that this amount be set up. (May 17, 1968)

Services - Engineering - Route 21
Edwards & Kelcey

10 The fee for Part I of our agreement with Edwards & Kelcey was predicated on an estimated construction cost of $16.2 million with the stipulation that any increase of scope would be reflected in the lump sum compensation provided. The estimated construction cost based on the unit price in the agreement is $22,900,000 (the actual estimated construction cost is $26,400,000). Non-compensatory construction costs amount to approximately $870,000. Changes in scope is accountable for an additional construction cost of $5.84 million. The percentage assignable for the original contract was 5 per cent. The changes are to be compensated for at the rate of 4.7 per cent. Since the rate of work is slightly reduced for the additional services, it is, therefore, necessary to provide an additional $274,600 or to re-establish the ceiling to $1,085,000. It is recommended that the sum of $325,000 be set up to provide for any unforeseen contingencies. (May 17, 1968)

Services - Engineering, Route 29
Fay, Spofford and Thorndike

11 Our consultants were authorized by a change order under the terms of our agreement dated November 28, 1961, for services in connection with Route 29 to obtain subsurface information. Compensation for this extra work has been estimated at $30,000 and it is recommended that this amount be set up. (May 13, 1968)

Services - Engineering, Route 33
Ernst, Ernst & Lissenden

12 During our negotiations with Ernst, Ernst & Lissenden for development of Route 33, it was stipulated that one property map would suffice for the property being purchased by the Neptune Housing Authority. This concept has now been revised and the Consultant is entitled to extra work compensation. It is estimated that the work will cost $8,000, and it is recommended that this amount be set up. (May 13, 1968)

Services - Engineering - Route 47
John J. Kassner & Co., Inc.

13 After our agreement with John J. Kassner & Co., Inc. relative to services for Route 47 was consumated, additional work was requested by the Department. The recently revised utility PPM caused part of the increased services. In addition, right-of-way plans were also requested. The project was also extended to facilitate a smoother transition at the project's termini. The increased fee associated with the aforementioned items are $5,500 for utilities, $3,500 for right of way and $10,000 for surveying.

The scope of services within the project has also been slightly revised and is responsible for an additional fee of $2,500. Sum of all items is $21,500. It is, therefore, recommended the ceiling on this phase of the agreement be increased by this amount. It is also recommended that an additional ceiling of $1,000 be assignable for increased printing costs. (May 17, 1968)

Services - Engineering - Route 169
DeLeuw Cather & Company

14 The scope of services covered in our agreement with DeLeuw Cather & Company dated November 11, 1963 for Route 169 has been increased. The estimated construction cost is now 3.1 million dollars in lieu of the former 1.8 million dollars. Additional compensation in the amount of $53,700 is required to close this account.

It is, therefore, recommended that this amount be set up. This will place the ceiling on this project for all expenses at $250,000. (May 17, 1968)

Services - Engineering
Route 208
Tippetts-Abbett-McCarthy-Stratton

15 In order to advance the design for the Lafayette Avenue Bridge, which was not included originally in our agreement with Tippetts-Abbett-McCarthy-Stratton dated March 17, 1967, in connection with Route 208, the consultants have been authorized to include this extra work into their project. Payment is to be made in accordance with the terms of our agreement at salaries times 2.1 with an adjustment of $22,000 to meet our commitment. In addition, extra work was also required that was not contemplated for which compensation must be provided. Reimbursement for this latter category amounts to $14,000. It is, therefore, recommended the ceiling for this project be increased from its present $120,000 by $36,000 to a total of $156,000. (May 14, 1968)

Services - Engineering - Route 280
Parsons, Brinckerhoff, Quade & Douglas

16 Our agreement with Parsons, Brinckerhoff, Quade & Douglas dated May 22, 1961, provided a fee as related to construction cost. The latest estimate places the construction at $38.7 million in lieu of the former $32 million. Although this is an Interstate project, $5 million of the aforementioned cost has been assigned to 50-50 monies. In order to cover reimbursement under the terms of our agreement, and also to compensate for contemplated change orders, an additional $700,000 is needed. It is, therefore, recommended that this amount be set up. $225,000 of this must be considered as a 50-50 funding. (May 17, 1968)

The State will make or cause to be made certain revisions and rearrangements to the facilities of the Authority to accommodate its construction contract for Route 287, Section 10G and 11C.

The State will reimburse the Authority for the cost of engineering services to be performed by the firm of Elson T. Killam Associates, Inc. in an estimated amount of $1,000.00. (May 14, 1968)

Route 29
Fay, Spofford & Thorndike

11 Our agreement with Fay, Spofford & Thorndike dated November 28, 1961, for services in connection with Route 29 provides for reimbursement based upon an estimated construction cost with preset unit prices. The estimate at the consummating of the agreement was approximately $5.8 million. The project has been changed drastically and now envisions a Freeway-type facility with the estimated construction cost of $13.3 million under the terms of our agreement. The estimated actual construction cost is $20.5 million. Additional funds of approximately $400,000 are needed as the contract presently stands.

The consultant has requested a new agreement, which if acceptable will require additional funds. This matter is presently being reviewed with the Bureau of Public Roads and a firm fee has not as yet been established. It does appear, however, that an additional $200,000 will be acceptable. Also, extra work has been authorized for borings, etc., which amount to approximately $100,000.

To meet our projected commitments, therefore, an additional $700,000 is required. It is recommended that this amount be set up. (May 22, 1968)

Services - Engineering
Route 35
Boswell Engineering Company

12 The scope of services specified in our August 1, 1966 agreement with Boswell Engineering Company relative to services for Route 35, has been increased. Added facilities and other factors count for an increase in the estimated construction cost from 1.5 million dollars to 2.5 million dollars. Reimbursement is provided at direct salaries times two towards a ceiling of $95,500. The former fee equivalent was 7%. The revised fee equivalent is 6.3% which produces a ceiling of $157,500.

A contingency factor of $8,000 should be allowed which will require an additional appropriation of $70,000. It is recommended that this amount be set up. (May 21, 1968)

It has recently been indicated that the original estimate did not envision any work for Route 69, which cost about $420,000. The consultant has indicated that the 5.4 per cent and not the 4.5 per cent should be chargeable to this extra work. This adjustment is reasonable and amounts to $3,780.

Change Orders are being issued to cover extra work for utilities and revisions to sign structures. This cost will approximate $4,300.

To cover the aforementioned expenses, an additional $8,080 is required. It is recommended that this amount be set up. **(May 27, 1968)**

It is contemplated that an additional $100,000 for extra work will also be authorized. To compensate for this extra work and to provide some contingency for the basic fee, it is recommended that $400,000 be set up. **(May 27, 1968)**

It is also necessary to provide compensation for approved change orders in the amount of $40,000. To provide for any unforeseen contingency, it is recommended that the sum of $702,000 be set up which will increase the previous total of $1,759,000 to $2,461,000. **(May 21, 1968)**

It is recommended that the award in the amount of $1,675.00 be approved and payment in the sum of $325.00, being the amount over and above the deposit in Court, be paid together with lawful interest as computed by the Bureau of Titles. (May 31, 1968)

Right of Way - Route 76

174 There is presented the matter of the commissioners' award in the condemnationof property on Route 76, Section 1, Parcel 348, City of Camden, owned by Aubyn D. Cardenes, et al.

At the hearing before the commissioners the award was in the amount of $8,250.00. The owner offered testimony in the amount of $11,395.00. The State offered testimony in the amount of $7,100.00. Fair Market Value had been set at $7,100.00. The amount of the deposit paid into court was $7,100.00 on May 22, 1967.

The State was represented by Fee Attorney.

It is recommended that the award in the amount of $8,250.00 be approved and payment in the sum of $1,150.00, being the amount over and above the deposit in court, be paid together with lawful interest as computed by the Bureau of Titles. (May 27, 1968)

Right of Way - Route 76

175 There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $3,500.00 for the condemnation of property on Route 76, Section 1, Parcel 838 owned by William Smith.

The owner's testimony before the Commissioners was in the sum of $3750.00 and the Commissioners' award was in the sum of $3500.00.

At the trial before the Court sitting without a jury, the State offered testimony in the amount of $2000.00, which was the fair market value. The verdict was entered in the sum of $3000.00, including interest.

It is recommended that the verdict in the amount of $3000.00, including interest, be approved and authority is requested to pay the $1000.00, which is the difference between the deposit of $2000.00 and the amount of the verdict, without interest if paid within ninety (90) days. (May 27, 1968)

Right of Way - Route 78

176 There is presented the matter of the Commissioners' award in the condemnation of property on Route 78, Section 4A, Parcels 46A,B,C, E46D, and 47A, Township of Bernards, owned by Louis Crescenzi; et al.

At the hearing before Commissioners an award of $13,200.00 was granted. Fair Market Value is registered in the amount of $9,600.00. The State's expert at the hearing testified as to $11,250.00, at a value of $1,500.00 per acre. The property owners expert offered testimony in the amount of $22,500.00, at a value of $3,000.00 per acre. There was a deposit paid into court in the amount of $9,950.00 on November 4, 1966.

State was represented by Fee Attorney. Fee Attorney did not recommend appeal. A protective appeal for the record was filed and later discharged.

It is recommended that the verdict in the amount of $13,200.00 be accepted and that payment in the sum of $3,250.00, being the amount over and above the deposit into court, be paid together with lawful interest as computed by the Bureau of Titles. (May 23, 1968)

Right of Way - Route 80

177 There is presented here the matter of the award of condemnation commissioners entered against the State in the condemnation of property on Route 80, Section 1F, Parcel 9A and 9B, owned by Unknown Owners.

At the hearing before the commissioners the State presented its first witness Nick Tuozzo; then presented Warren Orpen, who testified to a fair market value of $3,400.00. Commissioners awarded the sum of $3,400.00.

There was a deposit paid into Court in the amount of $2,250.00 on May 1, 1967. It is recommended that the award in the amount of $3,400.00 be approved and payment in the sum of $1,150.00, being the amount over and above the deposit in Court, be paid.

This should rescind the commission action of April 16, 1968 which reflected an incorrect amount be paid. (May 27, 1968)

Right of Way - Route 80

178 There is presented the matter of Judgment against the State on Route 80, Section 5K, Parcel R22, owned by Aeroil Products Co., Inc. By Commission Action approved January 26, 1968, it was recommended that the balance in the amount of $21,654 be accepted and that payment in the sum of $8,554 being the amount over and above the deposit into court, be paid together with lawful interest as computed by the Bureau of Titles.

Inadvertently, the difference between the Judgment and the withdrawn deposit was incorrectly stated and should read $8,664.

It is recommended that the correct amount of $8,664 be paid together with lawful interest as computed by the Bureau of Titles. (May 21, 1968)

Right of Way - Route 202-69

179 There is presented the matter of an appeal from the award of commissioners entered against the State in the condemnation of property on Route 202-69, Section 2, Parcel 3, title to the parcel involving Louis Pulkowski.

Fair market value was re-registered in the amount of $1,500. At the hearing before commissioners, the State's expert testified to a value of $1,500. The property owner's expert testified to a value of $4,300. The sum of $530 was deposited into Court on June 9, 1967. The commissioners award is $2,500.

It is recommended that an appeal be taken from the award of commissioners in the amount of $2,500. (May 23, 1968)

Right of Way - Route 202-69

180 There is presented here the matter of the appeal by the State and the owner from an award of condemnation commissioners in the amount of $2,500. A Judgment was entered against the State in the sum of $2,400 with interest in the condemnation of property on Route 202-69, Section 2, Parcel 3 owned by Louis S. Pulkowski.

At the trial before the Court sitting without a jury the State offered testimony in the amount of $700. The owners offered testimony in the amount of $4,300. There was a deposit in Court in the amount of $530. The verdict was in the amount of $2,400.

Approval of the payment of the verdict in the amount of $2,400 less $530 previously deposited and with interest as computed by the Bureau of Titles is recommended. (May 31, 1968)

Right of Way - Route 280

181 There is presented the matter of the Judgment entered against the State in the condemnation of property on Route 280, Section 4, Parcel 20A, owned by Alfred J. Valk.

The fair market value was re-registered in the amount of $17,300. The deposit was made into Court on or about August 4, 1967 in the amount of $15,800. The commissioners' award was in the amount of $20,000. This is a partial taking. The matter came on for hearing before a jury and after a conference with Right of Way it was agreed that it would be in the best interest of the State to settle the matter for $19,000 net without interest or cost.

Since this is a partial taking, I do not feel that a jury verdict would be less than $19,000.

It is recommended that the Commissioner approve the consent Judgment in the amount of $19,000 net without interest or cost and interest not to accrue on the Judgment from and after July 15, 1968. (May 31, 1968)

Right of Way - Route 287

182 There is presented here the matter of the award of condemnation commissioners entered against the State in the condemnation of property on Route 287, Section 8, Parcel 17A, owned by Margaret Clark.

At the hearing before the commissioners the owners offered testimony in the amount of $35,000.00 and the State offered testimony in the amount of $8,800.00. Fair market value was established in the amount of $8,800.00. Commissioners awarded the sum of $12,500.00. There was a deposit of $6,300.00 made into Court on March 28, 1966.

An appeal of the award of $12,500.00 is recommended. (May 31, 1968)

Right of Way - McGuire Air Force Base Access Rt.

183 There is presented the matter of the Commissioners' award in the condemnation of property on McGuire Air Force Base Accesss Route, (no section given) Parcel 5A and 5B, in the Township of Mount Holly, owner by Rob Taylor; et al,.

At the hearing before Commissioners an award of $10,000.00 was granted. Fair Market Value was originally registered in the amount of $3,150.00 and re-registered on August 8, 1967 in the amount of $5,900.00. The State's expert testified as to $5,900.00 for the Partaking. The property owner's expert offered testimony in the amount of $34,500.00. There was a deposit paid into Court in the amount of $3,150.00 on January 20, 1967.

State was represented by Fee Attorney. Fee Attorney recommends an appeal be taken in this matter if the following two factors can be established by the State:

1. That reasonable access across the medial strip can be shown by legal proof.
2. That, in fact, the damage caused by the breaking of the tiles to the back acreage is, in reality, minimal due to steps taken by the State to correct this situation.

It is recommended that an appeal be taken and a protective appeal has been filed. (May 23, 1968)

2 Robert Bossert & Company, Newark, New Jersey, was awarded a contract for drainage improvements and incidental work. Major portions of drainage lines were to be laid through lands of 555 Tonnelle Realty Corporation. The Department failed to secure an agreement with the above noted Realty Corporation and subsequent plans and actions failed to provide a satisfactory location for the proposed drainage installation.

Insofar as the Department has not furnished the necessary working site, the contractor has stated his decision to perform no more work subsequent to March 1, 1968.

It is recommended that the contract be terminated and that that portion of the work satisfactorily completed be accepted and final payment be authorized in accordance with the As-Built Quantities. (June 6, 1968)

Condemnation proceedings were previously authorized by the Commissioner on April 8, 1968 at which time the State's registered fair market value determination in the sum of $700 had been offered to and refused by the owners who demanded the sum of $3,000 for same, which was considered excessive.

Subsequently, our engineers advised that the location of the cul-de-sac for which the acquisition of the above-captioned parcel was required, was to be shifted from the west to the east side of Hominy Hill Road, and that because of this change in plans, the acquisition of Parcel 67E2 was no longer required in the construction of this route and section. The owners have been so advised.

It is, therefore, recommended that the previous action of April 8, 1968 be rescinded, and that this parcel be not acquired and that same be deleted from the general property parcel map.

No Complaint nor deposit having been made in the Superior Court, no request for withdrawal is necessary. (June 14, 1968)

On May 31, 1968 our Title Bureau advised us that the owners are unable to convey this parcel to the State free and clear of all encumberances due to the fact that the owners cannot clear up unpaid taxes and a tax lien certificate. In view of the fact that title to this property is involved, authority is requested to rescind the previous commission action of February 25, 1964 as well as the agreement for said conveyance.

Authority is therefore requested to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the Court $150. The owner, George A. Freas, is now deceased, and his widow has advised that she lacks the funds necessary to complete the settlement.

Authority is, therefore, requested to rescind the purchase agreement, as well as the commission action of September 13, 1966, and to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises.

On May 6, 1968, this matter came on to be tried before the Superior Court, Passaic County. At settlement negotiations I procurred authority from James V. Hyde, Jr., Director, Right of Way Division, to settle this matter in the amount of $36,500. Fair market value was registered in the amount of $34,500 and at the hearing the commission award was in the amount of $41,500.

At the hearing before commissioners the owners offered testimony in the amounts of $169,975.50 and $165,418. The State offered testimony in the amount of $79,500 with the fair market value being established in the sum of $86,300. The award of commissioners was in the amount of $104,533.

Fair market value was recently reregistered in the amount of $9,400.00. After consultation with Mr. James V. Hyde, Jr., Director of the Division of Right of Way, it was agreed that settlement in the amount of $10,500.00 should be accepted which include any and all interest.

Right of Way - Route 278

113 There is presented the matter of the Commissioners' award in the condemnation of property on Route 278, Section 1, Parcels 108A & 108B, in the City of Linden, owned by John W. Evans, Jr., et al.

The State was represented by Fee Attorney. Prior to the hearing the Fair Market Value had originally been set at $450,000.00. The amount of the deposit paid into the court on July 13, 1966 was $405,000.0(The owners settlement figure without prejudice was $500,000.00. From this summary it can be seen that the owner's reduced demand is not substantially in excess of the State's and must be considered as reasonable. An amicable settlement was reached in the amount of $498,000.00 prior to the institution of a condemnation suit. Subsequently, the property owner's attorney informed the State that title could not close because of marital difficulties between the owner and his wife. In order to solve the wife's dower rights and at the request of the attorneys for the property owner, an uncontested condemnation action was filed and, after hearing of testimony, the commissioners made an award in the above sum of $498,000.00.

It is recommended that the award in the amount of $498,000.00 be approved and payment in the sum of $93,000.00, being the amount over and above the deposit in court, be paid together with lawful interest as computed by the Bureau of Titles. (June 14, 1968)

Right of Way - Route 287

111 There is presented the matter of the Judgment entered against the State in the condemnation of property on Route 287, Section 9, Parcels 35 A, B & C, in the Township of Morris, owned by Dorothy W. Compton, widow; et al.

At the commission hearing, the commissioners' award was in the amount of $65,000. Appeal was taken from this award.

At the jury trial, the property owner testified in the sum of $100,000 and the State offered testimony in the amount of $50,000.

The jury verdict was in the amount of $80,000.

A Notice of Appeal to the Appellate Division has been filed.

Accordingly, approval of this appeal is recommended. (June 14, 1968)

115 Right of Way - Route 287

There is presented the matter of a commission award entered against the State in the condemnation of property on Route 287, Section 10, Parcel 52, owned by one Francis P. Landi; et al.

Fair market value is registered in the amount of $4,00.00. The State's expert at the hearing before the commissioners testified as to a value of $4,100.00 for the taking and damages to the remainder. The expert for the property owner testified to a value of $15,320.00 for the taking and damages to the remainder. A deposit was paid into Court in the amount of $4,000.00 on November 10, 1967.

The commission award was in the amount of $9,500.00. It is recommended that an appeal be taken. (June 14, 1968)

This is a partial taking with the difficulty of refuting damage claims in an appeal. Possession was taken in 1965 and the matter being over 2 years old, not only should the question of the State's costs for an appeal be considered but further, the variance between the award and the State's testimony not being a substantial amount, it is the opinion of both the Legal Division and the Right of Way Director who has been consulted that it is in the public interest to accept the award.

101 There is presented again the matter of acquisition of property on Route 21 Freeway, Section 4, Federal Aid Project: U-126-(18), Route 3 to Monroe Street, Parcel 132, City Motor Sales Co., Inc. Condemnation proceedings were previously authorized, as the owner's demand was $570,500, which was considered excessive.

Following updating of the appraisals to the complaint date (which is the legal date of valuation) continued negotiations were undertaken by the Right of Way Division at the range of the Fair Market Value of $425,000.

The owner's attorney indicated that he would consider a settlement in the sum of $475,000. This amount was considered excessive by the Right of Way Division and negotiations were, again, continued and an agreement was secured in the amount of $471,000, including all claims for interest.

Based on the Trial Attorney's recommendation that $475,000 would be a fair figure and that in his opinion a court award could not be achieved in a lower amount by reason of the fact that the appraisal of the State's fee witnesses who would testify in court were in the amounts of $450,000 respectively and that the court would award at least $10,000 interest (on the difference between the original deposit and the updated appraisals) and that the variance is not substantial from the fair market value estimate,

the matter is submitted with recommendation that it be approved as follows:

Parcel 132	City Motor Sales Co., Inc.	Consideration $471,000. Including a Court Deposit of $345,000 withdrawn by owner.

It is also recommended that condemnation proceedings previously authorized be discontinued. Further authority is requested to make payment of the sum of $126,000 representing the difference between the consideration provided for in the agreement, and the deposit withdrawn from Court.

The improvements on this property were demolished on February 17, 1967, by the contractor in the performance of his work. (July 2, 1968)

In accordance with Departmental Operating Procedure No. 3.106 and State requirements, Acting Commissioner of Transportation, Ronald Berman, has informed the Treasurer by means of his attached letter of July 18, 1968 that an emergency exists and has requested authority to arrange for the demolition of the buildings on the 7 properties which are considered hazards by reason of vandalism, fire, or health reasons.

Concurrently, the Assistant State Highway Engineer and the Regional Engineer have secured the attached proposal from V. Ottilio & Sons, Contractors, which firm is listed with the State as qualified demolition contractors, for the demolition of these structures in accordance with standard State procedures covering demolition and any necessary backfill of foundations. The total basic amount of this contract is $12,000 and covers 10 separate structures.

The matter is submitted to the Commissioner with a request that the proposal be accepted and authority be granted to notify the contractor of the acceptance and to authorize him to begin work immediately that the Treasurer's Office informs the Commissioner of his approval of authority to waive advertising by reason of the subject emergency.

The remainder of the structures on this project will be demolished as they become vacated by a separate contract being prepared by the Design Division which will be advertised in the usual manner as soon as is possible with a contract being awarded after the legally required advertising time has expired. Claims - Settlement

7 Charles C. Dougherty, Assistant Landscape Foreman, sustained fatal injuries as the result of an accident occurring on June 10, 1966 while operating Department Pick-up Truck bearing Reg. HYD 583. The third party involved in this accident was a William O. Newman, Route #2, Ellabell, Georgia, the owner and operator of the other vehicle involved. The State Trooper who investigated the accident indicated in his report that there was no improper driving on the part of the third party involved in this accident and that the State driver disregarded the traffic light. A statement was also taken from a disinterested outside witness who stated that the tractor-trailer had the green light at the time of the accident. Subsequent to the original investigation, two State Highway employees advised the State Police that they were on the scene at the time of the accident and that the State driver crossed the highway with a green light.

The widow obtained the services of an attorney to represent her in her claim against the truck driver. Suit was instituted and was recently reached for trial. Prior to the trial a settlement conference was held in the Judge's chambers at which time a top settlement figure of $15,000 was offered in full settlement of the case. The State of New Jersey had a financial interest in this suit by reason of a compensation award entered in favor of the widow in the amount of $12,953.50. The attorney representing the widow called the Claims Bureau in order to obtain approval of the settlement and suggested that the settlement figure be divided, a third to the State, a third to the widow and a third to the attorney, out of which all expenses of suit would be paid. I am attaching, hereto, correspondence received from the law firm of Brown, Connery, Kulp & Wille dated May 9 and July 9, 1968, both of which are self explanatory.

Giving due consideration to the circumstances involved in this case as outlined in the attorneys' letters, we feel the offer of settlement in the amount of $5,000 net to the State is fair and reasonable and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General William J. McCormack that the offer receive favorable consideration and be approved. (July 24, 1968)

3 Affirmative Action Program for Equal Employment Opportunity

It is recommended that the attached "Affirmative Action Program for Equal Employment Opportunity", consisting of 11 numbered pages, be approved. This program has been patterned to a large extent after developments by organizations representing the general construction industry, and in the process of this development, all concerned Federal agencies have been contacted, including the Bureau of Public Roads' Equal Employment Opportunity Officer at Regional Headquarters. This program will become a part of the contractor classification requirements indicated in the Affidavit shown on Page 3, and the enforcement features of the program will be stipulated in the Supplementary Specifications under Article 1.6.3 and 1.8.5, and no bids will be accepted unless they are accompanied by the "Reaffirming Affidavit" shown on Page 4. This program will be considered as constituting the minimum requirements where a "Program" or "Affirmative Action Program" is stipulated in either Federal or State laws and regulations. This program will become effective after the statutory public notice of regulations for classifying contractors has been satisfied as covered by a separate Commission Action. When this recommendation is approved, the appropriate date will be indicated in the first paragraph of Page 2. When approved, the attached program consisting of 11 pages will be published as reproduced by the photo offset process and furnished to prospective bidders and contractors by means of the appropriate responsible Departmental Divisions and Bureaus. In accordance with the recommendation made by the Claims Bureau and William J. McCormack, Deputy Attorney General, and George P. Bridegum, Director, Division of Accounting & Auditing, Department of Transportation, in connection with claims being carried against outside parties arising out of motor vehicle accidents, more fully set forth in the Schedule, attached hereto, it is hereby recommended that the claims in question be cancelled for the reasons set forth in the memorandum prepared by the Claims Bureau, dated August 5, 1968.

The twelve claims appearing on the Schedule total $4,486.27.
(August 19, 1968)

Claims - Settlement

5 Mr. Orlando DeLillo, Truck Driver, Division of Maintenance, sustained personal injuries arising out of an accident occurring on July 28, 1965 involving a vehicle owned and operated by Joseph Kisal. As the result of said injuries the Department of Transportation was required to expend the sum of $2,204.14 for temporary and permanent compensation, as well as, medical treatment rendered by Dr. Philip Willner.

This employee engaged the services of an attorney who recently settled his third party suit. After deducting the statutory allowances toward this employee's counsel fees and expenses of suit, the Department was entitled to the sum of $1,268.09 in full settlement of its compensation lien. The attorney representing Mr. DeLillo requested an adjustment of the State's lien and the Claims Bureau agreed to accept the sum of $1200.00 net in full settlement of our claim. I am attaching, hereto, letter received from Albert M. Neiss, Esq. dated April 30, 1968 in connection with the offer of settlement which is self-explanatory.

Giving due consideration to all the circumstances involved in this case, we feel the offer of $1200.00 is fair and reasonable and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of William J. McCormack, Deputy Attorney General, that the offer receive favorable consideration and be approved. (August 20, 1968)

Claims - Settlement

6 The Department of Transportation is carrying a claim against Jones Trucking Company in the amount of $1,484.99 covering the cost of snow plow parts which were destroyed as the result of a fire while said parts were in the possession of the Jones Trucking Company. The insurance company representing Jones Trucking Company has advised this office that there was a serious question of coverage, inasmuch as, the trucks were being stored at a location other than the location described in the policy. However, in order to avoid lengthy litigation, the insurance company offered the sum of $900.00 in full settlement of the Department's claim.

An investigation has disclosed that the Jones Trucking Company is no longer in business. The owner being an individual who is married, has one child and who is handicapped by the loss of one arm as the result of a previous automobile accident. Mr. Jones' earning capacity therefore is limited by reason of this physical handicap. The insurance company representing Mr. Jones has denied liability and refused to pay the owner of the building where the fire occurred and intends to put her to her proof with reference to her claim.

Subsequent negotiations by the Claims Bureau has now resulted in the insurance company agreeing to pay the State the sum of $1,000 in full settlement of its claim. The proposed offer of settlement has been discussed with Mr. Lipkin who after considering all the circumstances involved in this case feels the offer of $1,000 should be accepted. It is therefore our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormack, that the offer of settlement in the amount of $1,000 receive favorable consideration and be approved. (August 20, 1968)

154 Right of Way - Route 35

There is presented again the matter of acquisition of property on Route 35, Section 9, Leonardville Road to Route 36, Parcel R120, Straub Motors, Inc., (A N. J. Corp.). Condemnation proceedings were previously authorized by the Commissioner on December 5, 1966 and the State's registered fair market value of $62,000 was subsequently deposited in the Superior Court. This deposit was predicated upon the State's agents removing in its entirety a 44' by 100' auto showroom of which approximately 10% was within the area of taking, and the balance lying outside the right of way.

After condemnation proceedings had been instituted and a deposit made, further studies indicated that it was possible to permit the greater portion of the showroom area to remain outside the area of taking. Accordingly, the State secured an additional appraisal which indicated that the part of the building to remain still had utility and value, and a new fair market value determination was registered in the sum of $47,500.

Authority is therefore requested to withdraw the sum of $14,500 from the Superior Court leaving the balance on deposit in the sum of $47,500. **(August 20, 1968)**

A purchase agreement in the sum of $275 was previously approved by the Commissioner on October 18, 1966, with the former owner of this parcel, Haney's Gulf Service Station, Inc. (a N. J. Corp.).

Prior to the date set for closing, this corporation sold the entire property to Joseph Melchionna, et ux, who have advised the State that they will not honor the agreement executed by their predecessor in title and now demand a greater width to their driveway, as well as additional unspecified financial consideration.

The Right of Way Division would recommend the institution of a Specific Performance suit; however, the Legal Division advises that no action can be taken in this matter except the institution of condemnation proceedings.

The matter is therefore submitted for authority to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises and that the previous action granting approval of the purchase agreement in the sum of $275 be rescinded.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $275. **(August 20, 1968)**

Melango Sr., and Lillian A., h/w. Condemnation proceedings were previously authorized on November 21, 1967, at which time the State's suggested settlement of $1,200. was offered to and refused by the owners whose demand of $5,000. was considered excessive.

Subsequently, the appraisal was updated with the Fair Market Value being reregistered in the amount of $1,900., and continued negotiations have resulted in the execution of an agreement as follows:

Parcel 84 Louis J. Melango Sr., and Lillian A., h/w Consideration [illegible]
Less allowance to State for owners' retention and removal of one (1) electrified sign and two (2) light poles . . . . . [illegible]

The parcel having been appraised, the Reviewer's Fair Market Value determination being $1,900., the retention estimate being $70. for the electrified sign and the retention value being $30. for the light poles, and the variance not being substantial, it is recommended that this agreement be approved and that the condemnation proceedings previously authorized on November 21, 1967, be rescinded.

Condemnation proceedings were previously authorized on March 16, 1966 for Parcels 105A and 105B, and on January 27, 1966 for Parcel 105C, at which time the State's Registered Fair Market Value of $700 for Parcels 105A and 105B and $6,000 for Parcel 105C was offered to and refused by the owner whose combined total demand of $24,000 for Parcels 105A, 105B, and 105C was considered excessive.

It was later determined that the parcels were contiguous and were combined into one case.

Subsequently, a Commission Hearing was held on December 9, 1966 and the Commissioners rendered an award in the amount of $10,400 for Parcels 105A, 105B, and 105C, which was appealed by the State.

The State's Trial Attorney prior to the jury trial in this matter recommended to the Right of Way Division that settlement be made in the sum of $8,750 net. The Right of Way Division concurs in this recommendation as it is a reduction from the Condemnation Commissioners award and is not substantially in excess of the appraisal range. Approval is therefore recommended of the agreement as follows:

Parcels 105A, 105B, and 105C	Baga, Inc. (A N. J. Corp.)	Consideration	$8,750.00

The parcels having been appraised, the Reviewer's Fair Market Value Determination being $6,700 for Parcels 105A, 105B and 105C and the variance not being substantial, the agreement would appear to be in the public interest. Condemnation proceedings were previously authorized at which time the owners demand of $85,000 was considered excessive. At a hearing before commissioners, an award in the amount of $46,325 to which the court would have added substantial interest was appealed by authority of the Commissioner granted on October 5, 1967.

On May 27, 1968 the matter came on to be tried before the Superior Court, Morris County. The State would have presented testimony in the sum of $32,000 which was the fair market value. The owners offered testimony in the sum of $68,000. This case preceded the declaration of taking law by many years and with entry having been made on September 14, 1962, interest on the award which the owners have already been granted would now be almost $12,000 for a total of over $58,000. The sum of $32,000 was deposited into court on November 21, 1967 which sum was never withdrawn.

In view of these facts, the Trial Attorney contacted the Right of Way Division from the Judge's chambers and recommended settlement in the net amount of $48,500 inclusive of all claims against the State.

The Right of Way Director concurred in the Trial Attorney's recommendation, and Mr. McCormack submitted to the Commissioner an action approved on July 23, 1968 requesting authority to settle in this amount and for the Right of Way Division to secure agreements from the owner.

In accordance with the Trial Attorney's recommendations and the Commissioner's previous authority, the Right of Way Division secured agreements executed by the owner as follows:

Parcel R14 Morris Hills Shopping Center, a N. J. Corporation — Consideration $48,500.

The matter is now submitted with a recommendation that it be approved and that upon acceptance that the Commissioner execute the agreements on behalf of the State.

It is further recommended that the condemnation proceedings previously authorized be rescinded and that authority be granted to withdraw the deposit heretofore made into the Superior Court under the Declaration of Taking. (August 23, 1968)

95 There is presented again the matter of acquisition of property on Route 80 (1953), Section 3D, Federal-aid Project I-80-3-(6), Horseneck Road to Two Bridges Road (Fairfield Road). Condemnation proceedings were previously authorized at which time the owners' demand of $104,540 was considered excessive.

Subsequently, the appraisals were up-dated to the date of complaint (May 19, 1966) and the fair market value was re-registered in the amount of $85,500. Because of an upward market trend in real estate values in this general area, land values more than doubled due to the increasing scarcity of vacant land which accounts for the increase in the fair market value.

Before a commission hearing was scheduled, negotiations with the owner's attorney resulted in an agreement as follows:

Parcels 39A&B	John Malcolm Nordstrom & Florence B. Nordstrom,h/w	Consideration $104,000.
		Including deposit withdrawn from the court of $ 21,500.

The above settlement considers the fact that the courts would allow some $17,000 in interest on the difference between the court deposit of $21,500 and the present fair market value of $85,500 if the case proceded to trial and the award did not exceed the State's testimony, a factor which is not likely in that most awards are higher than the State's testimony.

The agreement, therefore, appears to be reasonable and in the public interest and is submitted with the recommendation that it be approved.

It is further recommended that condemnation proceedings previously authorized be rescinded. Further authority is requested to make payment of the sum of $82,500 representing the difference between the consideration provided for in the agreement and the deposit withdrawn from Court. The Commissioner on February 14, 1968 approved an agreement whereby the above-captioned owners would convey these parcels to the State for the sum of $700.

Subsequently, our Title Bureau advised us that the title company has determined that there is a serious defect in the owners' title and the owners have been so advised. Our Title Bureau attempted to have the owners take the necessary court action to institute a Bill to Quiet Title in order to perfect their title. The owners have advised that they are not willing to go to the expense of such an action.

Inasmuch as the State cannot acquire marketable title for these parcels under the terms of the agreement, authority is, therefore, requested to rescind the agreement, as well as the commission action of February 14, 1968, and it is recommended that authority be granted to institute condemnation proceedings for the acquisition of these parcels in fee simple, subject to any public utilities existing in the premises.

Right of Way - Route 80

115 There is presented again the matter of condemnation of property on Route 80, Section 4E, Project I-80-4-(10), From Two Bridges Road to Glover Avenue, Vornado, Inc. Condemnation proceedings were previously authorized for the acquisition of Parcels R102A and R102B and the sum of $320,000., representing the fair market value has been deposited with the Superior Court.

Subsequently, the Engineers determined that some additional takings designated as Parcels 102C and 102D were required. Parcels R102A, R102B, 102C and 102D were appraised and the fair market value was re-registered in the amount of $365,000 which was offered to and refused by the owners who again refused to state a demand.

It is, therefore, recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcels 102C and 102D subject to any public utilities existing in the premises and that the complaint filed in this matter for the acquisition of Parcels R102A and R102B be amended to include Parcels 102C and 102D.

116 There is presented again the matter of an appeal from the award of commissioners entered against the State in the condemnation of property on Route 280 (1953), Section 5, Project I-280-6-(4), Northfield Avenue to Kenilworth Place, Parcel 315, title to the parcel involving D. M. P., Inc.

At the hearing before commissioners, the State's expert testified to the value of $1,150 and the property owner's expert testified to a value of $6,300. The commissioners awarded $2,200 and pending a mutual review by the Legal and Right of Way Divisions the Trial Attorney took a protective appeal.

The subsequent Legal and Right of Way review indicated that this is a partial taking which necessitates a partial demolition and re-habilitation and re-construction of the front of the owner's building.

By reason of these factors, it is the mutual opinion of the Legal and Right of Way Divisions that an appeal would not result in a reduction of the award. For these reasons and that the award is not substantially in excess of the State's testimony, it is here-with recommended that the award in the amount of $2,200 be approved and that the appeal be withdrawn. It is further requested that authority be granted to make payment in the sum of $1,200 which represents the difference between the deposit paid into court and the award made by the commissioners be paid together with any lawful interest as computed by the Bureau of Titles upon Legal Division's accomplishment and notification that the appeal has been dismissed. The commission award was in the amount of $27,000.00. It is therefore recommended that an appeal be taken. (August 29, 1968)

Right of Way - Route 23

137 There is presented the matter of the Commissioner's award in the condemnation of property on Route 23, Section 5, Parcel 5, in the Township of West Milford, owned by John Vander Stad; et al.

At the hearing before the Commissioners, an award of $4,400.00 was granted. Fair Market Value was registered in the amount of $1,500.00. The State's expert testified as to $1,500.00. Owner's witness testified as to $5,000.00, for the taking and damages to the remaining lands. There was a deposit paid into court in the amount of $950.00 on December 11, 1967. State was represented by Fee Attorney Gary M. Schwartz.

The award is excessive, and it recommended that an appeal be taken and a protective appeal is about to be filed. (August 29, 1968)

Right of Way - Route 33

138 There is presented the matter of CORRECTING the Judgment heretofore entered and the Commission Action approved on June 27, 1968 per June Schwartz, Acting Secretary, against the State in the condemnation of property on Route 33, Section 5, Parcel 29A, in the Township of Manalopan, owned by Andrew Glovich; et al, due to an error in computation of interest on the jury verdict which failed to allow credit for the deposit into court in the sum of $22,400.00.

The jury verdict was in the amount of $34,000.00. State's expert testified as to $22,700.00 for the taking and damages to the remaining lands. Owner's expert testified in the amount of $36,042.00, for the taking and damages to remaining lands. There was a deposit paid into court in the amount of $22,400.00 on January 26, 1967.

State was represented by Fee Attorney Gary Schwartz.

It is recommended that the Amended Judgment entered on July 16, 1968, in the amount of $34,665.49 be approved, being the sum total of the jury verdict in the amount of $34,000.00 plus interest at six percent per annum on $11,600.00, which interest from date of entry by the state to date of Jury verdict is computed at $665.49.

Right of Way - Route 35F

139 There is presented the matter of the Commissioners' award in the condemnation of property on Route 35F, Section 2, Parcel 87, in the City of Asbury Park, owned by Trefoil Holding Corp.; et al.

At the hearing before the Commissioners an award of $15,000.00 was granted. Fair Market Value was registered in the amount of $12,250.00. The State's expert testified as to $12,250.00, for taking and damages to remaining lands. There was a deposit paid into court in the amount of $9,850.00 on May 4, 1967.

The State was represented by Fee Attorney, John W. O'Mara.

It is recommended that the award in the amount of $15,000.00 be approved and payment in the sum of $5,150.00, being the amount over and above the deposit in court, be paid together with lawful interest as computed by Bureau of Titles.

No appeal is recommended for the following reasons: The award is not substantially higher than the evaluation by the State's expert witness and the registered Fair Market Value. Furthermore, experience with juries in Monmouth County has been to the effect that a verdict will most likely not result in a much lesser amount.

For the reason stated, it is in the public interest that the award of the commissioners be not appealed. **(August 29, 1968)**

There was a deposit paid in the court in the amount of $2,300.00 on June 15, 1967.

The state was represented by Fee Attorney Samuel Sagotsky.

NO. 28 - 1968

It is recommended that the award in the amount of $2,750.00 be approved and payment in the sum of $450.00 being the amount over and above the deposit in court, be paid together with lawful interest as computed by the Bureau of Titles.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 98 Mollnick Realty Consideration $116,500. including the sum of $107,900. previously withdrawn from court

This settlement is within a reasonable range of the registered fair market value determination of $107,900. and is below the Condemnation Commissioners award of $118,687. the agreement would appear to be in the best interest of the State in that if this case were to go to a jury a reduction of the Commissioners award is not likely, therefore, approval is recommended.

It is also recommended that condemnation proceedings previously authorized be discontinued. Further authority is requested to make payment of the sum of $8,600., representing the difference between the consideration provided for in the agreement and the deposit withdrawn from Court.

The improvements were demolished by the road contractor in the performance of his work. (September 26, 1968)

(September 26, 1968)

Right of Way - Route 72

115 There are presented report and appraisal with map and description on Route 72 (1953), Section 6, Federal Project LSF-130- (2), From Union Stafford Township Line to Route U.S. 9, Parcel L10H, Lake Manahawkin Estates, Inc. (A.N.J. Corp.).

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. The State's registered Fair Market Value of $22,500. was offered to and refused by the owner who refuses to make a demand pending receipt of his appraisal.

Should prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $22,500. (September 26, 1968)

Right of Way - Route 76

116 There is presented again the matter of acquisition of property on Route 76 (1953), Section 1, Federal-aid Project I-76-8-(12), From Benjamin Franklin Bridge to Kaighn Avenue, Parcel 511, Sun Oil Co., a corp. of N. J. Condemnation proceedings were previously authorized by the Commissioner on March 20, 1967. At the condemnation commissioners hearing, the owner testified to a value of $39,500, and the State's testimony was in the sum of $26,500; which sum was previously deposited in the Superior Court. The condemnation commissioners award was in the sum of $28,850.

Both the Legal Division and the Right of Way Division recommend that this award be accepted as the variance is not substantial and it is doubtful that a trial by jury would reduce same, and payment of this award is therefore recommended as being in the public interest.

It is recommended that the award of $28,850 be approved and payment in the sum of $2,350, being the amount over and above the deposit in court be paid together with lawful interest as computed by the Bureau of Titles. (September 26, 1968)

Right of Way - Route 78

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. The owners demanded $44,400., which is considered excessive.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $5,300.00. (September 26, 1968)

118 Right of Way - Route 78

There is presented again the matter of condemnation of property on Route 78 (1953), Section 5C, Federal-aid Project I-78-5-(2), Diamond Hill Road to Shunpike Road; Parcel 33, John Novak, Jr., and Edith, h/w. Condemnation proceedings were previously authorized by the Commissioner on February 27, 1967. On July 6, 1967 the State's fair market value determination of $26,700 was deposited in the Superior Court. Subsequently, the fair market value was re-registered in the sum of $29,300.

At the Condemnation Commissioners' Hearing, but before testimony was taken, a consent award was entered in the sum of $30,300 without interest. Subsequently a first amendment to complaint was filed on July 23, 1968 revising the descriptions of the taking and in effect making it an entire taking. The variance not being substantial both the Legal and Right of Way Divisions recommend the approval of the consent award with the inclusion of the additional property.

Further authority is requested to make payment to the owner in the sum of $3,600 representing the difference between the deposit previously made into the court and the proposed settlement. (September 26, 1968)

119 Right of Way - Route 78

There are presented report and appraisal with map and description on Rt.78, Section 5-G, From Schuyler Avenue to Elizabeth Avenue, Project I-78-5-(6), Parcel 924, Willie Leonard, Jr., and Ruby, H/W.

On February 16, 1968 the Commissioner approved an agreement covering the conveyance of Parcels 12A and 12B for a consideration of $2,550 from Norma S. Frutchey, widow. Subsequently, our Title Bureau advised that Norma S. Frutchey claimed ownership under the terms of a will which had never been probated, and at that time it appeared as if the ownership of this property was vested in unknown owners. The commission action of February 16, 1968 was rescinded and condemnation proceedings were, therefore, authorized for these parcels.

On September 6, 1968 our Title Bureau advised that a report of title dated June 26, 1968 has certified Norma S. Frutchey as the owner of these parcels.

Authority is, therefore, requested to rescind the commission action of April 1, 1968 authorizing condemnation proceedings, and approval is hereby requested to accept the agreement previously executed on February 7, 1968 and to make payment to Mrs. Frutchey in the sum of $2,550 as the owner of these parcels.

The parcel has been appraised and the Reviewer's registered Fair Market Value determination is $27,400 and the value of the damaged remnant to be acquired is $300. It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel and the damaged remnant in fee simple, subject to any public utilities existing in the premises.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $27,700.

Fair market value was re-registered in the amount of $1,100. At the hearing before the commissioners, the State's expert witness testified to a value of $1,100. No testimony was offered on behalf of the defendant as to the value of the land; however, his expert witness estimated the value of replacing a wall would be $1,550, and the cost of regrading the driveway would be $1,500. On July 7, 1967, $900 was deposited into Court. The commissioners awarded $2,000.

Because of the fact that the State's expert witness did not consider any damages to the wall or the driveway and some proof was offered as to these damages, it is recommended that the award be accepted, and that $1,100, being the amount over and above the deposit in Court, be paid. **(September 26, 1968)**

The Company has submitted bills in the actual amount of $152,224.23 which exceeds the original estimate by $26,224.23. This increase was due to the fact that the original estimate did not include all reimbursable items, plus the fact that since the original estimate, which was made in 1965, there has been an increase in labor costs.

It is, therefore, recommended that the additional amount of $5,456.16 be set up to cover the actual cost performed by the Company. (October 7, 1968)

This parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $140,000. This settlement is not substantially in excess of the appraisal range and also in connection with Parcel 41, Peter J. Logothetis, et al, there is a complicated legal question concerning unity of use which the trial attorney felt could adversely affect the State's case if continued to trial. Both the legal and Right of Way Division concur that the agreement would appear to be in the best public interest, Approval is recommended.

It is also recommended that condemnation proceedings previously authorized be rescinded.

Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking. It is further recommended that authority be granted to dispose of the electric outdoor sign to the road contractor, by public auction or sealed bids. (October 3, 1968)

✓ Right of Way - Route 17

111 There is presented again the matter of acquisition of property on Route 17, Section 4, Control Section 0212-401, Ridge Road to Route U.S. 46. Condemnation proceedings were previously authorized, as the owners' demand was $26,000., which was considereded excessive.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 41 Peter J. Logothetis, et al Consideration $20,000.

This parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $18,000. This settlement is not substantially in excess of the appraisal range and also in connection with Parcel 40, Imperial Diners, Inc. there is a complicated legal question concerning unity of use which the trial attorney felt could adversely affect the State's case if continued to trial. Both the legal and Right of Way Division concur that the agreement would appear to be in the best public interest. Approval is recommended.

It is also recommended that condemnation proceedings previously authorized be rescinded.

Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking. (October 3, 1968)

✓ Right of Way - Route 17

112 There is presented again the matter of acquisition of property on Route 17, Section 4, Control Section 0212-401, Ridge Road to U.S. 46. Condemnation proceedings were previously authorized on March 3, 1968. The owner refused the State's registered Fair Market Value in the amount of $9,650. and demanded $100,000. which was considered excessive. Subsequently, Legal requested another opinion of value which was secured and resulted in the Fair Market Value being re-registered in the amount of $16,300. At a condemnation hearing the Commissioners rendered an award in the amount of $19,500. The State has appealed this award.

Continued negotiations have resulted in the executed agreement as follows:

Parcel 158 Abraham Weinstein & Florence, h/w Consideration $18,000.
including the sum of $9,650. previously withdrawn from Court

This settlement is within a reasonable range of the registered Fair Market Value Determination of $16,300. and is below the Condemnation Commissioners award of $19,500. The agreement would appear to be in the best interest of the State in that if this case were to go to a jury, a reduction of the Commisssioners award is not likely, therefore, approval is recommended.

It is also recommended that the condemnation proceedings previously authorized be discontinued. Further authority is requested to make payment of the sum of $8,350. representing the difference between the consideration provided for in the agreement and the deposit withdrawn from Court. (October 4, 1968)

113 ✓ Right of Way - Route 18 Freeway

There is presented again the matter of acquisition of property on Route 18 Freeway, Section 9, Federal Project F-112-(26), From Route 79 To Route 34, Parcels 34A & 34B, Valentine J. Kowalski, Jr. & Eva Kowalski h/w. Condemnation proceedings were previously authorized on October 30, 1967 at which time the State's Registered Fair Market Value of $9,850. was offered to and refused by the owner whose demand of $25,000. for the entire property or $12,500. plus the raising of the remainder to grade was considered excessive.

Subsequently an appraisal updating resulted in the Fair Market Value being re-registered in the amount of $10,350. and continued negotiations have resulted in the execution of an agreement as follows:

Parcels 34A & 34B	Valentine J. Kowalski, Jr. & Eva Kowalski h/w	Consideration $10,700.

The parcel having been appraised and the Reviewer's Fair Market Value Determination being $10,350. and the variance not being substantial this agreement would appear to be in the public interest. It is recommended that this agreement be approved and the condemnation proceedings previously authorized on October 30, 1967 be discontinued.

Further authority is requested to withdraw the deposit of $9,850. heretofore made into the Superior Court under Declaration of Taking. (October 7, 1968)

Parcel 8A & B	Richard H. Dutton & Ethel G. Dutton, h/w	Consideration $9,000

The parcel has been appraised and the Reviewer's registered fair market value determination is $7,025. The settlement being within a reasonable range of the fair market value and the State having entered the property in 1961, interest due the owner if this proceeded to a hearing would amount to some $2,700. Therefore, the agreement would appear in the public interest and approval is recommended.

It is further recommended that condemnation proceedings previously authorized be rescinded. Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking. (October 3, 1968)

115 Right of Way - Route 24 Freeway

Parcel 76 Louis G. Zachary & Lilly V. Zachary, H/W. Consideration $5,200

The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $4,750. The variance not being substantial, the agreement would appear in the Public interest and approval is recommended.

Parcel R37 Frank Allocco & Rose Allocco, h/w Consideration $45,000.
Mary Allocco (widow), Joseph
Allocco (single), Dominick Allocco
(single), Angelina Allocco (widow)

The parcel having been appraised, the Reviewer's fair market value determination being $45,500., and the variance not being substantial, the agreement would appear to be in the public interest. It is recommended that this agreement be approved and that the condemnation proceedings previously authorized on November 14, 1966 be discontinued.

Further authority is requested to withdraw the deposit of $20,500. heretofore made into the Superior Court under Declaration of Taking.

Inasmuch as the two-story frame dwelling, tile block garage, frame road stand, and three frame sheds, have been removed by the road contractor in the performance of his contract, no further authority for disposal is necessary. **(October 3, 1968)**

117 Right of Way - Route 78

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel R86	Perth Amboy Coal & Oil Co. (A New Jersey Corp.)	Consideration $175,900.

Fair market value is registered in the amount of $20,000.00. The State's expert at the hearing before the commissioners testified to a value of $20,000.00. The property owner's expert at the hearing testified to a value of $46,700.00. A deposit of $20,000.00 was made on January 25, 1967. The commissioners award is in the amount of $35,450.00.

It is recommended that the award be appealed. The commission award in the amount of $35,450.00 is considered excessive.
(September 30, 1968)

Right of Way - Route 35

138 There is presented the matter of the Commissioners' award in the condemnation of property on Route 35, Section 9, Parcel R39, in the Township of Holmdel owned by Frank Luccarelli; et al.

At the hearing before the Commissioners an award of $5,600.00 was granted. Fair Market Value was registered in the amount of $2,000.00. The owner's witness testified to $12,550.00. The State's expert testified to $2,000.00 for the entire taking of an improved parcel. There was a deposit paid in the court in the amount of $1,800.00 on April 21, 1967.

The state was represented by Fee Attorney John O'Mara.

Since the award exceeds the state's appraisal and testimony by $3,600.00, it is recommended that appeal be taken and a protective appeal has been filed.
(September 30, 1968)

Right of Way - Route 37

139 There is presented the matter of the Commissioners' award in the condemnation of property on Route 37, Section 4A, Parcels R21A, 21C, in the Township of Dover owned by Helen G. Applegate; et al,

At the hearing before the Commissioners an award of $10,500.00 was granted. Fair Market Value was registered in the amount of $5,500.00. The owner's witness testified to $22,600.00. The State's expert testified to $5,500.00 for the partial taking of an improved parcel. There was a deposit paid in the court in the amount of $3,400.00 on January 25, 1968.

Since the award exceeds the state's appraisal and testimony by $5,000.00, it is recommended that appeal be taken and a protective appeal has been filed by the Right of Way and Legal Divisions. **(October 4, 1968)**

Right of Way - Route 76

140 There is presented the matter of the Commissioners' award in the condemnation of property on Route 76 (1953), Section 1, Parcel 246A, in the City of Camden owned by Clarose Corporation; et al.

At the hearing before the Commissioners an award of $9,000.00 was granted. Fair Market Value was registered in the amount of $6,800.00. The owner's witness testified to $14,000.00. The state's expert testified to $6,800.00 for the entire taking of an improved parcel. There was a deposit paid in the court in the amount of $6,800.00 on June 29, 1967.

The state was represented by Fee Attorney Louis Portella.

Subject property consists of a three-story dwelling. The state's witness, although nationally prominent and of the highest professional affiliations, appeared weak and lacked adequate preparation with his overall testimony not being convincing. The property owner's appraiser for this case was extremely well prepared, thorough, and convincing.

It is recommended that the award in the amount of $9,000.00 be approved and payment in the sum of $2,200.00 being the amount over and above the deposit in court, be paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended since the Commissioners' award is fair and reasonable; not substantially in excess of the registered Fair Market Value and the payment of the award is recommended as being in the public interest. Further, under the defined circumstances, it is the opinion of the trial attorney that an appeal would not result in a substantial reduction of the award. The houses, having been previously demolished, it is extremely hard to convince a jury that their condition was as poor as they appeared to be to the state's representatives. **(October 4, 1968)**

It is recommended that the award in the amount of $8,250.00 be approved and payment in the sum of $2,350.00 being the amount over and above the deposit in court, be paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended since the Commissioners' award is fair and reasonable; not substantially in excess of the registered Fair Market Value and the payment of the award is recommended as being in the public interest. Further, under the defined circumstances, it is the opinion of the trial attorney that an appeal would not result in a substantial reduction of the award. The houses, having been previously demolished, it is extremely hard to convince a jury that their condition was as poor as they appeared to be to the State's representatives. **(October 4, 1968)**

There is presented the matter of the Commissioners' award in the condemnation of property on Route 76 (1953), Section 1, Parcel 246C, in the City of Camden owned by Clarose Corporation; et al.

There is presented here the matter of the commission award in the condemnation of property on Route 80, Section 4E, Parcel 132 owned by A. M. White Lodge #168 Independent Order Brith Abraham Cemetery Association.

At the hearing before commissioners the owners offered testimony in the amount of $5-6,000. The State offered testimony in the amount of $1,800. The award of commissioners was in the amount of $2,700.

Since the award percentage wise is greatly above the Fair Market Value, an appeal is recommended, however, since the dollar amount is not greatly in excess of the Fair Market Value, it is recommended that further efforts be made to settle this matter. (October 4, 1968)

149 Right of Way - Route 202

There is presented here the matter of an appeal by the State from an award of commissioners in the amount of $11,200. After the trial a Judgment was entered against the State in the amount of $10,000 with the price to include two additional pieces of property which would have been remainders after the taking, all in the condemnation of property on Route 202, Section 6, Parcel 2 owned by Julia Chmielewski.

At the trial before the court sitting without a jury the State offered testimony in the amount of $7,400. The owners were represented by Ryman Herr, Jr., and they offered testimony in the amount of $17,200. The fair market value was established in the amount of $6,100. There was a deposit of $4,500, and the verdict was in the sum of $10,000.

In view of the fact that Judgment has been entered it is recommended that the Judgment be approved and that the sum of $5,500 be paid representing the difference between the deposit of $4,500 and the verdict of $10,000 with interest as computed by the Bureau of Titles. Approval and authorization is also sought for the acquisition of the additional parcels as outlined in the Judgment. (October 4, 1968)
